

**STUDIO LINE**  
**Ceiling luminaires**  
 Shielded

A new addition to the STUDIO LINE, this family of ceiling mounted downlights is available in three sizes. Their unique beauty and versatility is enhanced by the choice of three matte interior finishes combined with two matte exterior finishes. These finishes may be chosen to complement a wide array of interior spaces. A subtle hint of colored light on the outside edge of the beam spread results from the internally reflected light. The result is an eye-catching and elegant lighting effect.

Provided with electronic driver.

An overview of more luminaires from the STUDIO LINE is provided on page 4.

Molded silicone lens · Reflector made of pure anodized aluminum, matte interior finish · Die-cast aluminum housing, white or velvet black finish

Select the desired interior finish by using appropriate code number as suffix

- Matte aluminum Code number .2
- Matte brass Code number .4
- Matte copper Code number .6

LED color temperatures: 2700K, 3000K, 3500K, 4000K

BEGA can supply you with suitable LED replacement modules for up to 20 years after the purchase of LED luminaires – see page 186. Further LED technical data including luminous flux, CRI, service life, and dimming and electrical characteristics are provided on the individual luminaire specification sheets, available at [www.bega-us.com](http://www.bega-us.com).

NRTL listed to North American Standards, interior use only
