

Application

LED ceiling luminaires with direct and indirect light distributions. A focusing/ dispersing lens collimates the powerful LED light in the center of the reflector for the direct portion of the downlight. At the same time, a fraction of the dispersed light is used to illuminate the luminaire glass to generate vertical illuminance. Designed for the illumination of public or private rooms, stairways, and hallways with a high level of visual comfort.

Materials

Luminaire housing constructed of aluminum with painted white, stainless steel, or polished aluminum finish  
Three-ply opal glass  
Frosted crystal glass focusing/dispersing lens  
Reflector made of pure anodized aluminum  
High temperature silicone gasket

NRTL listed to North American Standards, suitable for damp locations  
Weight: 1.1 lbs

Electrical

Operating voltage	120-277V AC
Minimum start temperature	-30° C
LED module wattage	3.0 W
System wattage	5.0 W
Controllability	0-10V dimmable
Color rendering index	Ra > 90
Luminaire lumens	265 lumens (3000K)
Lifetime at Ta = 15° C	> 500,000 h (L70)
Lifetime at Ta = 25° C	310,000 h (L70)

LED color temperature

4000K - Product number + **K4**  
3500K - Product number + **K35**  
3000K - Product number + **K3**  
2700K - Product number + **K27**

**BEGA** can supply you with suitable LED replacement modules for up to 20 years after the purchase of LED luminaires - see website for details

Finish

Select the desired material finish by using appropriate code number as suffix.

Available finishes	White	Code number <b>.1</b>
	Stainless steel	Code number <b>.2</b>
	Polished aluminum	Code number <b>.3</b>

Interior ceiling luminaires · downlights with direct and indirect light					Required wiring box
